

New Product Announcement

IQ Shock Mini – S sensor

Date:	December 21, 2023
Region:	USA
Product:	IQSM
Brand:	Qolsys

Scope

Johnson Controls is pleased to announce the launch of the IQ Shock Mini – S sensor, IQSM. The IQSM sensor uses an accelerometer for precise measurement of impact forces expected when a door or window is forcibly opened. There are three (3) shock threshold settings that can be used for calibration of the sensor to various mounting surfaces and different door or window rigidity. The sensor also transmits open and close events to the IQ Panel when a door or window is opened and closed in typical fashion.

Ordering Information

Order code	Description	MOQ
IQSM	IQ Shock Mini – S sensor	20
